Category: Business

This course offers comprehensive, hands-on training in creating infographics and digital media using Microsoft PowerPoint. Participants will learn how to design professional visual content for social media platforms such as Facebook, Instagram, and LINE Official Account. The course emphasizes that producing advanced graphic and media doesn't require complex software like Photoshop or Illustrator - instead, it harnesses the full creative potential of PowerPoint, a tool readily available on most computers.

Objectives

1. Understand key design principles and visual elements used in infographics.
2. Apply appropriate colors, fonts, and images to effectively convey meaning.
3. Organized and manage text, icons, and graphic shapes including both custom designs and online resources for impactful infographic layouts.
4. Design infographics for advertisements and promotional media optimized for Facebook and other social media platforms.
5. Create engaging videos and animations for use as digital media content.

Target Audience

1. Individuals interested in creating infographics and digital media for social media platforms such as Facebook, Instagram, and LINE Official Account.
2. Individuals interested in using animation to enhance communication and audience engagement.

Prerequisites

1. Proficiency in Microsoft PowerPoint.
2. A Facebook account for testing and displaying infographic and digital media.

System Requirements

1. Windows 11 / Windows 10
2. Microsoft PowerPoint | Microsoft 365
